

Ask your doctor about....

MS-FIRST Study- “Functional Intermuscular Reduction of SpasTicity”

You may qualify if you:

- Have a diagnosis of Multiple Sclerosis
- Are 18-64 years of age
- Are able to walk 100 feet
- Have not had Botox® in your legs in the last 6 months

You will help us determine the effects of trigger point dry needling and electrical stimulation for walking in people with MS.

You will receive:

- 6-weeks of treadmill walking
- Partial compensation for your time and travel

If you or anyone you know is interested in participating in this study, please speak with your doctor and contact:
