

Do You Have MS? Don't Go It Alone.

So you have Multiple Sclerosis. You should never feel alone or that others don't understand. Join ATOMS (Association To Overcome Multiple Sclerosis), OKC's MS Support Group. We have been serving Central Oklahoma since 1954. We are an affiliate of the National MS Society, which is one of the largest supporters of the MS community and research in the United States.

Benefits of joining ATOMS:

- Learn from others, with the disease and from our speakers.
- Make new friends and share with others.
- Confidential, information is not shared outside the group.
- Open to family members and care partners.
- Free to join.

For more information on meetings, scan the QR code below or visit AtomsOKC.org.
